ABOUT ME

I am a committed and adaptable developer transitioning from web development to a focus on ERP systems and Python programming. With hands-on experience in creating and deploying Websites, I have developed a strong foundation in managing projects from conception to completion. Currently a second-semester student at DHA Suffa University, I am expanding my expertise to include ERPNext, Python, and related technologies. Passionate about leveraging technology to streamline business processes, I aim to contribute effectively to ERP and Python-based projects.

SKILLS

Python | Java Script | ERPNext | Linux OS | SQL | Docker | AI-Utility | Project Management

EDUCATION

- | | |
|---|--------------------|
| ❖ DHA Suffa University 2 nd Semester | CGPA: 3.26 2027* |
| ❖ Commeccs College | 73.55% 2023 |

EXPERIENCE

- ❖ **Web Developer | Createch Solutions | [Linkedin](#)**

Sep - Nov 2023

Developed and deployed fully functional WordPress websites for three clients, managing the entire life cycle from production to testing to deployment. Collaborated with clients to understand their requirements, ensuring responsive design and cross-browser compatibility. Integrated plugins, optimized performance, and conducted thorough testing to ensure smooth operations. Technologies used: WordPress, HTML, CSS, JavaScript, PHP, MySQL.
